

At YOUR Fingertips

Over the next few weeks, kids will learn how to stay safe on the Internet. They will get the tools they need to recognize danger on the Web, keep their information private, make Godly choices when they are online and talk openly about their feelings concerning the Internet.

Below is a guide of resources designed to help you keep current on the trends and culture. This guide is full of resources we believe will help you not only to become better acquainted with the Internet and Internet safety, but also to direct your leaders, kids and parents to some great websites, resources and even search engines that will keep them safe and help them to make Godly choices.

WEBSITES

www.NetSmartz.org

Online resource teaching children, teens and parents safety on the Internet. This is a great site. The NetSmartz Workshop is an interactive, educational safety resource from the National Center for Missing & Exploited Children and Boys & Girls Clubs of America for children ages 5 to 17, parents, guardians, educators, and law enforcement that uses age-appropriate, 3-D activities to teach children how to stay safer on the Internet.

www.theporntalk.com

This is a great website on how to talk to kids about pornography and Internet dangers. The website features relevant media, great thought-provoking podcasts, real parents' stories, conversation starters and other great safety tips to help all kinds of parents and pastors.

www.xxxchurch.com

This is a great website to give great ideas on how to support someone who is struggling with pornography. Check out X3Watch for accountability software with weekly or biweekly reports, full detailed log reports, and it's free. Also available, Safe Eyes has accountability and filtering and X3Pure is a video workshop, accountability, and filtering.

www.protectkids.com/dangers

Making the Internet safer for children and families through education, empowering parents, establishing rules, provides safety tools, resources, and even a place to report a cyber crime.

www.keepingkidssafetoday.com

This site has multiple international best-selling authors teaching kids to keep themselves safe and creating safer families.

www.netlingo.com/newadd.cfm

"NetLingo has thousands of definitions that explain the online world of business, technology, and communication including the largest collection of Internet acronyms and text messaging shorthand."

www.tekmom.com/buzzwords

The above is a site providing a computer dictionary for all ages.

www.enough.org

Enough Is Enough is a site designed to make the Internet safer for children and families.

Sites from New Hampshire Public Television and PBS

HOW TO REPORT

If a child or teen is in immediate physical danger, call 911 or your local police.

If a young person is in danger of being lured into a real-life meeting with a predator, fill out [cybertip.ca](http://www.cybertip.ca)'s online reporting form at <http://www.cybertip.ca> or use their toll-free phone line: 1-866-658-9022 to report it as soon as possible. You should also contact your local police.

If a child or teen is being stalked, harassed or threatened online, contact your local police. You should also report any such incidents to your Internet Service Provider [ISP]. If the incident involves a fellow student, contact the school's principal as well.
